Follow These Three Rules

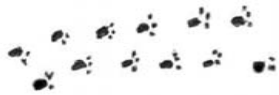

Dogs can frighten or injure park visitors, and easily disturb birds and ground-dwelling wildlife. Please keep your dog leashed and under control.

Dogs swimming and wading in the water can have a negative impact on aquatic habitat and water quality. Please keep your dog out of the water.

Dog waste disturbs park visitors, and is harmful to the environment. Please pick-up your dog's droppings and put them into a garbage can.

British Columbia Wetlands Society
